

## **PROCEDURES FOR CHINA BOUND PASSENGERS FROM TANZANIA AND TRANSIT PASSENGERS VIA DAR ES SALAAM BEFORE BOARDING**

Air Tanzania Company Limited is delighted to announce the introduction of the flight to/From Guangzhou, China effective from the 20<sup>th</sup> March 2021, the flight will operate once a week in every Saturdays from **DAR ES SALAAM, TANZANIA** to **GUANGZHOU, CHINA** and return on the same day. Flight time will be approximately 11 hours.

Below are the requirements/procedures from The Embassy of the People's Republic of China regarding all China bound passengers from Tanzania and transit passenger before boarding the ATCL flight.

### **1. For passengers originating from Tanzania;**

- Passenger must undertake both **Nucleic Acid Test (PCR)** and **IgM Serum Antibody Test** within **48 hours** before the flight.
- All passengers with **Negative results** must apply to the Chinese Embassy in Tanzania or the Consulate General in Zanzibar for a **green health code with the "HS" mark** or a **green health declaration code with "HDC" mark** before boarding. Codes issued by any other authority are invalid.
- The code can be presented in electronic or printed form together with their **Negative PCR & IgM Antibody certificates**.
- Passenger to be advised to take a private quarantine from the first PCR test.
- All passengers departing from Dar es Salaam will be subjected for a final **Generic Rapid Test** at the airport before the check in process. Tentative cost for the rapid test is **USD 25** and passengers are request to report **4 Hours** before departure to allow time for the test to be taken.

### **2. For all passengers transiting via Dar es Salaam, Tanzania to China are required to take the following measures:**

- ➔ All passengers are advised to arrive in Dar es Salaam 72 hours before their next flight to China.
- ➔ All passengers will be required to stay in the designated hotels for self-quarantine at least 48 hours prior to departure in order to ensure closed-loop quarantine.
- ➔ All transit passengers should have Green Code and negative certificates for **Nucleic Acid Test (PCR)** and **IgM Serum Antibody Test** from the country of origin.
- ➔ All transit passengers will undergo again the second **Nucleic Acid Test (PCR)** and **IgM Serum Antibody Test** within 48 hours before boarding.
- ➔ All passengers with **Negative results** must re-apply to the Chinese Embassy in Tanzania or the Consulate General in Zanzibar for a **green health code with the "HS" mark** or a **green health declaration code with "HDC" mark** before boarding. Codes issued by any other authority are invalid.
- ➔ The code can be presented in electronic or printed form together with their **Negative PCR & IgM Antibody certificates**.
- ➔ All passengers transiting through Dar es Salaam will be subjected for a final **Generic Rapid Test** at the airport before the check in process. Tentative cost for the rapid test is **USD 25** and passengers are request to report **4 Hours** before departure to allow time for the test to be taken.

### 3. Other Conditions;

- ATCL flights to China will only uplift Chinese Citizens and any other Citizens with special permission from the Chinese Embassy in Tanzania.
- ATCL flights from China will uplift all Nationality bound to Tanzania and beyond.
- Verification of the certificates issued from **National Laboratory** will be made against names of the negatively tested passengers provided by the National Laboratory.
- Verification of the **Green health declaration code** issued by The Embassy of the People's Republic of China will be made against names of the **Negatively tested** passengers.
- **Green health declaration code** will be checked its validity before boarding as per the Notice from the Embassy.
- **WHO** protection procedures against **COVID-19** such as **Mask wearing, Sanitization** and **Distance** will be observed throughout.
- **Green health declaration code** will be checked its validity before boarding as per the Notice from the Embassy.
